YOUR HOME DESERVES

KOHLER QUALITY

SPRUCE GREEN

PEACHBLOSSOM

CERULEAN BLUE

TUSCAN

Regardless of its size, your home merits the finest in plumbing fixtures and fittings. Kohler maintains a single high standard of quality. When making selections to suit your taste and budget, you can be sure every product contains materials of the same fine grade, is manufactured and inspected with the same vigilant care.

The choice of Kohler fixtures in white or one of the clear, fresh, pastel colors is a long step toward the creation of a bathroom, washroom or kitchen as beautiful as it is practical. Kohler fixtures have simplicity, grace, good proportion. They harmonize when grouped in sets. And Kohler chromium-plated brass fittings, made expressly for Kohler fixtures, assure matched beauty and maximum efficiency. The glass-hard surfaces of vitreous china and enameled iron are exceptionally easy to keep sparkling clean.

Kohler products bear marks of identification—signifying that back of them is the responsibility of the Kohler organization.

KOHLER CO.

FOUNDED 1873

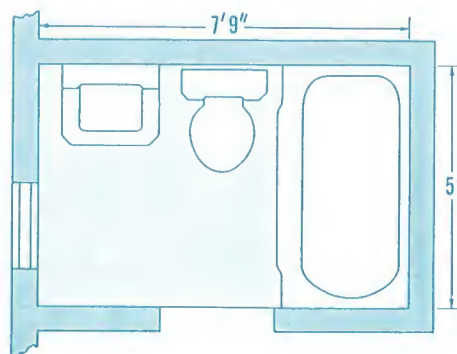

KOHLER, WISCONSIN

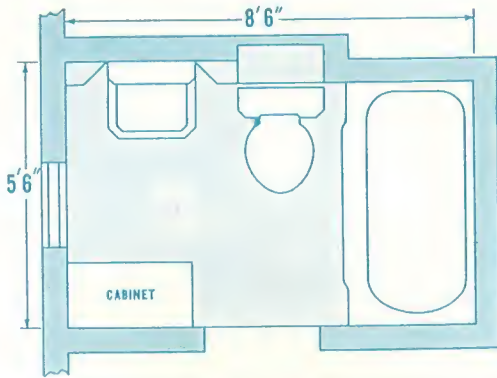

SPRUCE GREEN IN A HARMONIOUS SETTING

Forthright in design, without superfluous elements or ornamentation, this bathroom is thoroughly modern in comfort and decoration. Cork, scored wall board, ceramic or other tile, as well as plaster and paint may be used to secure an interesting contrast with the Spruce Green fixtures. Bath fitting includes the Kohler Niedecken mixer which delivers cold, tempered, or hot water instantly at the turn of a single handle.

Fixtures illustrated: Cosmopolitan enameled bath, K-525-F; Gramercy vitreous china lavatory, 24x20", K-1600-A; Channel siphon jet closet, K-3655-EB.

COLOR IN BACKGROUND

The popularity of white Kohler fixtures is based, in part, upon the numerous possibilities they allow in use of color in the floor, walls, curtains, and towels. The Hampton enameled lavatory has built-in mixer fitting for convenience in securing desired water temperature. The two-valve Dalton fitting controls water for both shower and bath. Widely used is the modestly-priced Wellworth reverse trap closet.

Fixtures illustrated: Cosmopolitan enameled bath, K-525-A; Hampton enameled lavatory, 22x19", K-2720-A; Wellworth reverse trap closet, K-3705-PB.

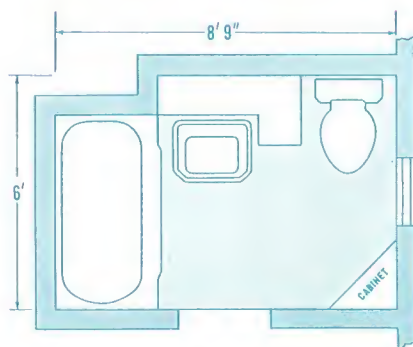

A CHEERFUL AND PRACTICAL BATHROOM

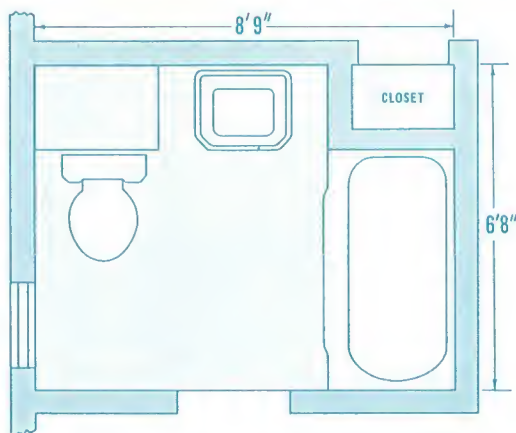

An air of freshness and light pervades this bathroom with its cool chartreuse and warm rose tones in effective contrast to the glistening white of the Kohler fixtures. The Jamestown vitreous china lavatory is equipped with chromium-plated legs and towel bars. The Dalney diverter bath and shower fitting and the space-saving Centra mixer on the lavatory, as well as all Kohler fittings, complement and are expressly designed for Kohler fixtures.

Fixtures illustrated: Cosmopolitan enameled bath, K-526-E; Jamestown vitreous china lavatory, 24x20", K-1775-C; Bolton reverse trap closet, K-3665-PB.

RELATED DESIGN

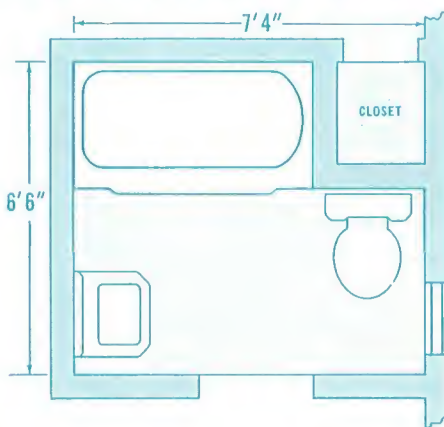

The clean-cut lines of Kohler fixtures show to excellent advantage in this matched set. The Cosmopolitan Bench Bath has a Triton mixer-diverter shower and bath fitting. Included on the Westchester enameled lavatory is a two-valve fitting with spout above rim to prevent back siphonage.

Fixtures illustrated: Cosmopolitan enameled bath, K-525-F; Westchester enameled lavatory, 24x20", K-2792-F; Wellworth reverse trap closet, K-3705-PB.

CONVENIENCE AND STYLE AT MODEST COST

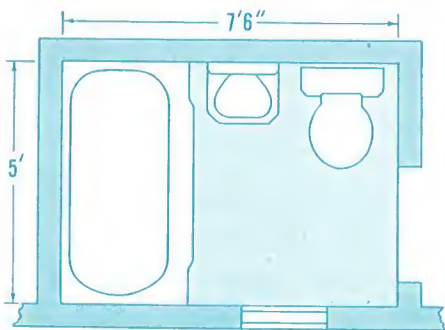

How comfort and freedom of movement can be achieved in a compact bathroom of moderate size. The bath is the popular Cosmopolitan with fitting which includes the Clearpass fast-draining pop-up drain used on all Kohler baths. Lavatory is the enameled Hudson with back, to protect wall from splashing.

Fixtures illustrated: Cosmopolitan enameled bath, K-525-P; Hudson enameled lavatory, 20x18", K-2825-C; Wellworth reverse trap closet, K-3705-PB.

WHITE SIMPLIFIES PLANNING

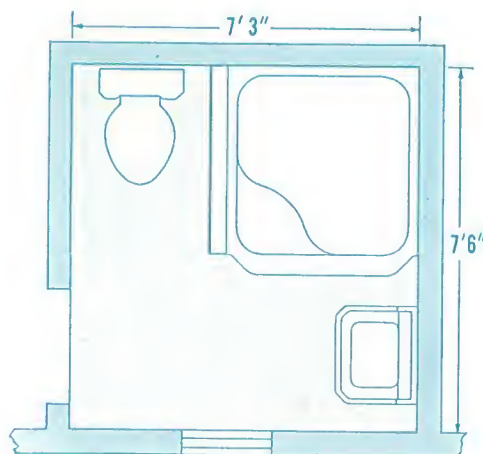

For the modest home, this bathroom gives conclusive proof that appearance need not be sacrificed in favor of a lower price. Simulated tile walls add much to the room, but very little to the overall cost. The enameled lavatory is the Delton. Small in size, but offering the advantages of a large basin, it has two soap dishes and built-in mixer fitting. Closet is the inexpensive Trylon washdown.

Fixtures illustrated: Cosmopolitan enameled bath, K-526-P; Delton enameled lavatory, 18x15", K-2745-A; Trylon washdown closet, K-3715-PB.

"TIMES SQUARE" FOR A SPECIAL NEED

That modern design and lively colors can be combined with thoroughly satisfying, practical results is shown in this set with Times Square Showering Bath. The Times Square is roomier for splash-free tub or shower bathing. Built-in corner seat for ease of access, foot bathing, or the luxury of a sitting shower. Its shape often leaves extra space which can be used for closets or cabinets.

Fixtures illustrated: Times Square enameled bath, 4x4', K-206-F; Chesapeake vitreous china lavatory, 24x20", K-1740-C; Channel siphon jet closet, K-3655-EB. In distinctive Tuscan.

COSMOPOLITAN RECESS BATH WITH SHOWER

COSMOPOLITAN RECESS BATH

KOHLER BATHS

Graceful proportions and lustrous glass-hard surfaces characterize the Cosmopolitan Bench Bath. It is cast in one piece, is of non-flexing iron, and has no joints or crevices. The low sides for easy access, wide bench rim, flat bottom, and slope end promote safety and comfort. In beauty and value, the Cosmopolitan is outstanding. Available in pure white, and in four clear-color pastels—Spruce Green, Peachblow, Cerulean Blue, and Tuscan.

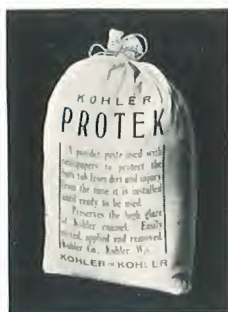

Left. K-525-F Recess Bath with K-7025 shower and bath fitting which includes the Niedeecken mixer, diverter spout, and pop-up drain. Width at ends, 31"; height, 16". Lengths, 4½, 5, 5½-ft.

Left, below. K-526-P Recess Bath with K-7080 bath fitting, over-rim spout, pop-up drain. Width at ends, 31"; height, 16". Lengths, 4½, 5, 5½-ft.

Below. K-551-P Corner Bath with K-7080 bath fitting, over-rim spout, pop-up drain. Width at ends, 31"; height, 16". Lengths, 5, 5½-ft.

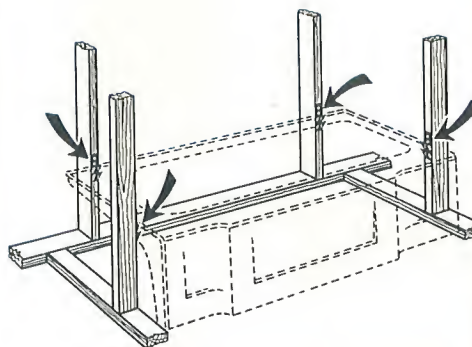

COSMOPOLITAN CORNER BATH

KOHLER PROTEK

Protek protects the enameled surfaces of plumbing fixtures from mars and scratches while your bathroom is being built or remodeled.

When mixed with water and applied to several layers of paper, the powder forms a tough protective covering for the fixtures. A brief water-soaking allows the coating to be peeled off easily. K-1180.

"TIGHT WALL" BATH HANGER

A firm anchorage for your built-in bath is assured by Kohler's "Tight Wall" bath hangers. Simple and easy to use, they hold the bath securely against the wall.

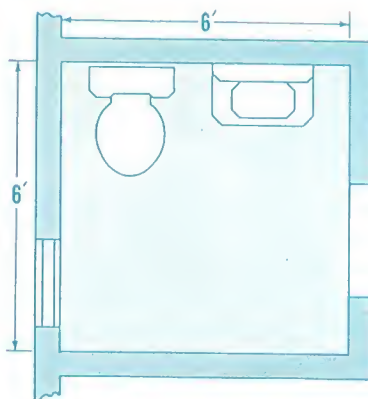

Four "Tight Wall" hangers are used, as illustrated, to anchor recess bath; three for corner baths. K-1170.

FIRST FLOOR WASHROOMS

Though small in space requirements, a first-floor washroom adds greatly to comfort and convenience by reducing through-the-house traffic, simplifying child-training, and providing facilities for guests. The Strand is suggested where limited space necessitates a narrow lavatory. The exquisite beauty of the Peachblow fixtures is soft and unobtrusive—a color you can live with and enjoy.

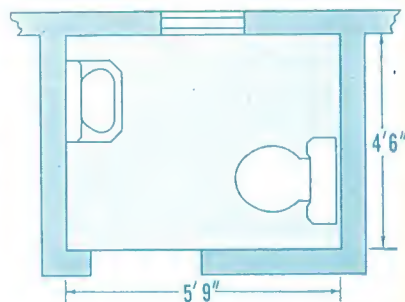

Fixtures illustrated: Strand vitreous china lavatory, 20x14", K-1645-A; Bolton reverse trap closet, K-3665-PB.

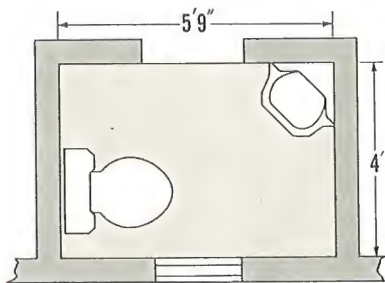

The modestly-priced answer to the problem of additional facilities for the single-bathroom home is shown here in a setting that complements the appealing Cerulean Blue fixtures.

Fixtures illustrated: Taunton enameled lavatory, 24x14", K-2740-A; Wellworth reverse trap closet, K-3705-PB.

Permanent value can be added to *your* home with the installation of a washroom. For remodeling, or where space is at a premium, the corner lavatory is recommended. Can frequently be used to advantage in bedrooms, nurseries, and kitchens to increase facilities. Has mixer type fitting with spout and handles over the basin.

Fixtures illustrated: Marston enameled lavatory, 16x16" (sides), K-2760-A; Bolton reverse trap closet, K-3665-PB.

CLOSETS

K of K closets have a positive, thorough, direct flushing action—quiet, without an excessive use of water. Every closet in the extensive K of K line is of vitreous china—made of the finest clays thoroughly vitrified and glazed by firing at high temperature. Ranging in size from the massive, one-piece Placid to the popular close-coupled combinations, there is a closet to meet every requirement and budget.

Choose from 3 types:

SIPHON JET—utilizes a powerful jet of water in addition to the siphonic action. Quiet, efficient, and sanitary in performance, it makes the most satisfactory type water closet.

REVERSE TRAP—same siphonic action as the siphon jet type, but with somewhat smaller trapways and water areas. Lower in cost than the siphon jet type, the reverse trap closet is an efficient and popular fixture.

WASHDOWN—operates on the principle of siphonic action with a trap of smaller diameter. Largely used where cost is the primary consideration.

PLACID. Siphon jet, one-piece, elongated bowl. The choice for master bathrooms of fine residences. Height 28½", width 22", front to back 29½". Hygienic sheet-covered seat and cover. K-3600-EB.

CHANNEL. Siphon jet, close-coupled, with elongated or round front bowl. Height 29½", width 22", front to back 29¾". Hygienic sheet-covered seat and cover. K-3655-EB or PB.

BOLTON. Reverse trap, close-coupled, with elongated or round front bowl. Height 30", width 21¾", front to back 30". Hygienic sheet-covered seat and cover. K-3665-EB or PB.

WELLWORTH. Reverse trap, close-coupled, with round front bowl. Height 30", width 21¾", front to back 26½". TriKo coated seat and cover. K-3705-PB.

TRYLON. Washdown, close-coupled, with round front bowl. Height 29½", width 21¾", front to back 26½". TriKo coated seat and cover. K-3715-PB.

BOLTON

WELLWORTH

SEATS

K of K seats are available with or without covers, open or closed front, for round front or elongated bowls. Hygienic sheet-covered and Olsonite molded seats can be had in the four Kohler colors. TriKo coated Regent seats come in white only.

HYGIENIC Open Front for Elongated Bowl. K-4700

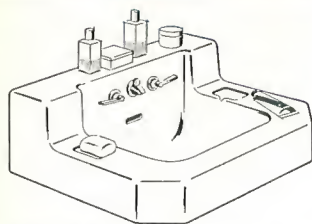

TRYLON

GRAMERCY

STRAND

Many Kohler lavatories have a shelf extending across back to accommodate articles of toiletry.

ROCKPORT

RINSE

KOHLER VITREOUS CHINA LAVATORIES

The trim lines of these lavatories make them truly graceful fixtures in their own right; when grouped with other Kohler fixtures, they form attractive *matched ensembles*.

Vitreous china lavatories are made of the finest imported and domestic ball and china clays. Fired many hours for complete vitrification and glazing, as in the manufacture of fine table china. Their glass-hard, non-absorbent surfaces are *acid-resisting* and easy to keep spotlessly clean.

GRAMERCY. A graceful fixture with unobstructed shelf ranging from 4 $\frac{1}{4}$ " in the smallest size to 5 $\frac{1}{4}$ " in the largest. Mixer fitting, pop-up drain, metal legs and towel bars. Sizes, 19x17", 22x18", 24x20", and 27x22". K-1600-A. Wall hanging model, K-1605-A.

STRAND. A space-saving lavatory 26" long but only 15 $\frac{1}{2}$ " wide. Also in 20x14" size. Mixer fitting, pop-up drain, metal legs and towel bars. K-1640-A. Wall hanging model, K-1645-A.

ROCKPORT. A space-saving corner lavatory with 7 $\frac{1}{2}$ " wide shelf at the center, mixer fitting, and pop-up drain. Size (sides), 17x17"; corner to front, 20 $\frac{1}{4}$ ". K-1680-A.

RINSE. A dental lavatory for the home. Takes little space—just 14" square. Has 3 $\frac{1}{2}$ " wide shelf, mixer fitting, flushing rim, and vacuum breaker to prevent back siphonage. K-1700-A.

The addition of soap dishes, wall towel bars, a tumbler holder, glass shelf, or tooth brush holder give extra convenience to your bathroom. Easily attached; no screw heads show. Accessories match Kohler fittings in chromium-plated brilliancy and design.

CHESAPEAKE

WALL-FREE TOWEL BARS

No drilling necessary with towel bars that are easily attached to the lavatory. Bars are hexagonal to prevent towels from slipping. K-9565.

JAMESTOWN

CHESAPEAKE. Has raised rim around ledge and slab, Centra mixer fitting, pop-up drain, metal legs and towel bars. Sizes, 20x18", 24x20", and 30x22". K-1740-C. Wall hanging in 18x15" and 20x18" sizes. K-1745-C.

JAMESTOWN. This gracefully proportioned lavatory with flat top and all-around raised rim comes with Centra mixer fitting and towel bars. Sizes, 20x18", 24x20", and 27x22". K-1775-C. On pedestal, K-1785-C.

GREENWICH. Low-cost fixture with 6" back, Centra mixer fitting, and pop-up drain. Sizes, 20x18" and 24x20". K-1955-C.

ARROWHEAD. This vitreous china lavatory allows the home planner to follow the increasingly popular trend of building the lavatory into a counter or dressing table. Counter top can be of ceramic tile, linoleum, or plastic, as well as other materials. Size, 20x18". With Centra mixer fitting and pop-up drain, K-1890-C. With combination fitting as shown at lower right, K-1892-F.

GREENWICH

ARROWHEAD

KOHLER ENAMELED LAVATORIES

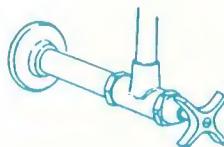

The beauty of good design and sound workmanship are characteristic of Kohler enameled lavatories. They have a base which is cast for long service, strength, and rigidity. The glass-hard surfaces of lustrous enamel are easy to keep sparkling-clean. Fittings are of heavy brass, chromium-plated, and designed especially for Kohler lavatories. The Kohler line of enameled lavatories includes types and sizes to meet a wide variety of uses.

HAMPTON. A generous basin capacity and 4" wide shelf are two of the outstanding features of the popular Hampton. Has mixer fitting, pop-up drain, metal legs and towel bars. Sizes, 19x17" and 22x19". With chromium-plated legs, K-2710-A. Wall hanging model, K-2720-A.

TAUNTON. For washrooms and small bathrooms. Shelf 3¾" wide, mixer fitting, and pop-up drain. Sizes, 16x14", 20x14", and 24x14". K-2740-A.

Top: **HAMPTON** with legs. Bottom: Wall hanging **HAMPTON**.

Stops make it possible to shut off water easily at fixture, without interfering with the supply elsewhere.

TAUNTON

DELTON

DELTON. A low-cost 18x15" shelf lavatory for the small, well-appointed home. Has 3" wide shelf, mixer fitting, and chain with stopper. K-2745-A.

TRAVELER. Ideal for rest rooms, trailers, and where space is at a premium. Has a 3" wide shelf, mixer fitting, and chain with stopper. Size, 13x13". K-2750-A.

TRAVELER

HUDSON

HUDSON. For modest bathrooms. This low-cost enameled lavatory has Centra mixer fitting with pop-up drain and 5" back for protection of walls. Sizes, 20x18" and 22x19". With Centra fitting, K-2825-C. With individual faucets, K-2830-J.

MARSTON

MARSTON. An enameled corner lavatory with many of the features of larger fixtures, the Marston has a shelf 7½" wide at the center, mixer fitting, and pop-up drain. Size (sides), 16x16". K-2760-A.

WESTCHESTER

WESTCHESTER. Enameled lavatory with flat, roomy top, and raised rim. Centra mixer fitting, pop-up drain, and metal towel bars. Sizes, 20x18" and 24x20". With metal legs, K-2790-C. On pedestal, K-2780-C. Wall hanging, K-2795-C.

For Building into a Cabinet or Counter

TAHOE

TAHOE. This 20x18" enameled iron lavatory is designed especially for installation in custom-built cabinets and counter tops. Has a deep basin and two integral self-draining soap dishes. Fitting is the popular and compact chromium-plated Centra. As illustrated, K-2818-C; with Bancroft combination fitting, K-2820-F. An aluminum frame, assuring water-tight installation, is available.

KOHLER FITTINGS

ARE ENGINEERED TO SERVE KOHLER FIXTURES

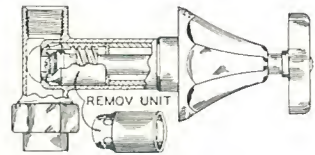

Kohler fittings are die-marked for ease of identification.

Kohler's chromium-plated brass fittings provide long and completely satisfactory service. They are designed specifically for Kohler fixtures and in many instances are built-in at the factory.

All Kohler fittings have double action threads for quick opening and closing. Bodies are sturdy and full-size, with large waterways. Castings are smooth, thus insuring a better plating finish. Threads are deep and cleanly cut for long service. Valve seats are renewable for easy and economical maintenance. The lustrous surfaces are chromium-plated over a preliminary coating of nickel.

Kohler manufacturing calls for close tolerances, rigid controls, and inspections after each major operation. Completed products are tested under varying water pressures for dependable performance. They are made of the highest quality raw materials and backed by more than 75 years of manufacturing experience.

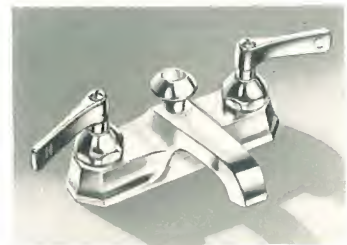

The Remov unit confines wear to the unit instead of the valve-body, making its replacement economical and easy.

WENDRON. Built-in shower including compact mixer for cold, tempered, or hot water at the turn of a single handle. K-7205.

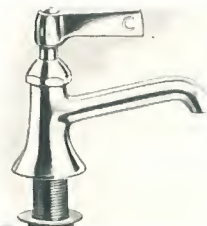

SHOWER FITTINGS

CENTRA. Compact fitting that groups the hot and cold valves, the knob for pop-up drain, and the spout into a space less than 6" on the lavatory shelf or ledge. K-8005.

LAVATORY FITTINGS

ARGYLE. Faucet with spout raised 13 1/2" above base to eliminate back siphonage. K-3133.

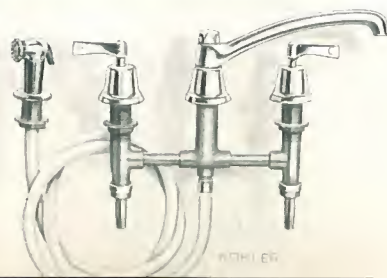

DALNEY. Shower and bath fitting featuring the diverter handle which directs water to shower head or bath. K-7040.

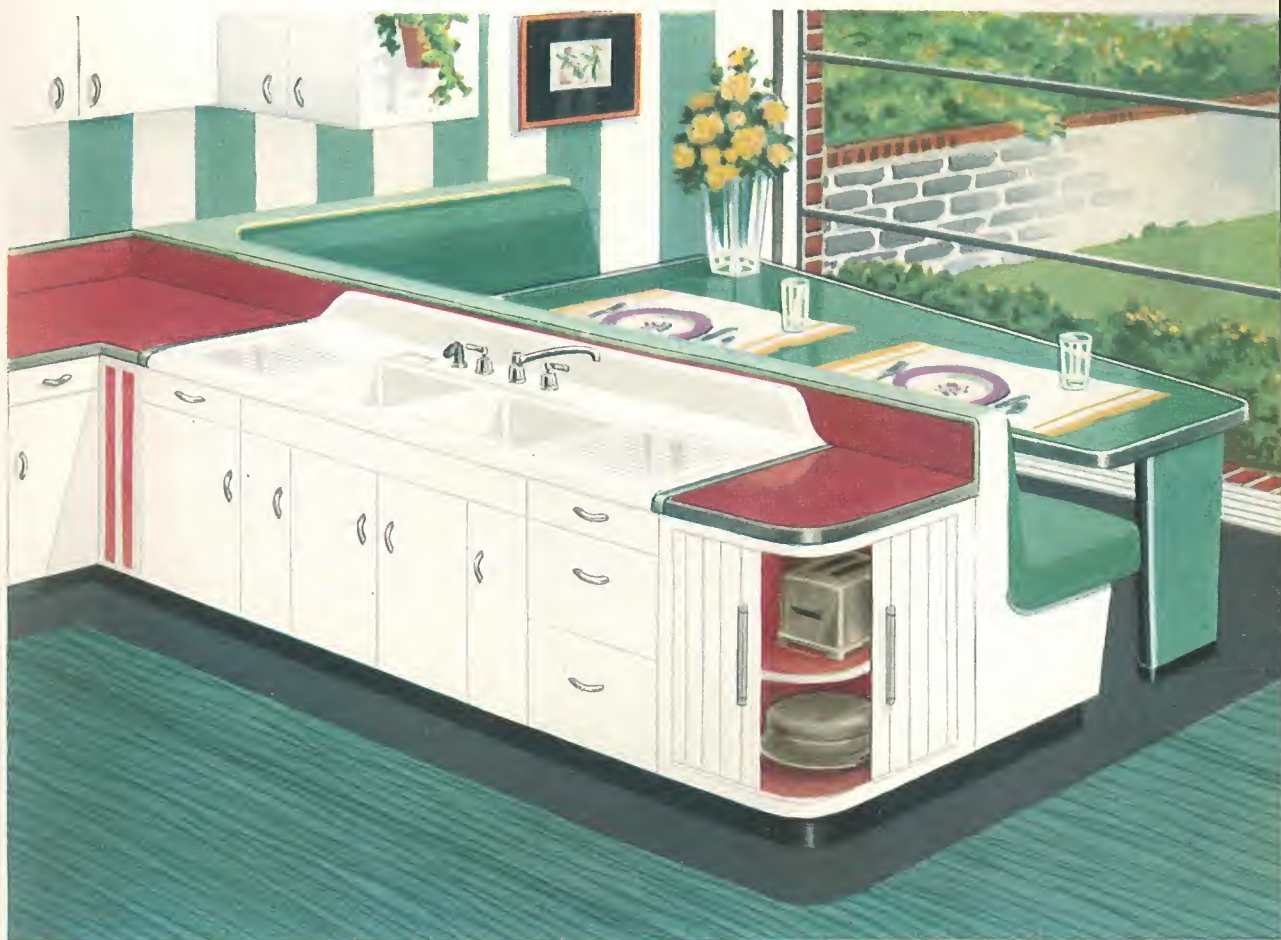

The latest in shower heads. Fine needle to flood-shower spray at the touch of a finger. Incorporates the self-cleaning feature—will not clog. K-7332.

SINK FITTING

EDGEWATER. Counter-top mixer fitting with 3" swing-spout and lever-control sprayer. K-3605. Less sprayer, K-3601. Both available also with third water valve for drinking water. Aerator optional on all sink fittings.

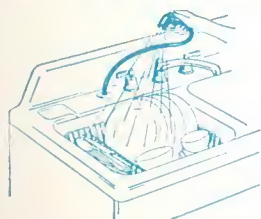

A KOHLER SINK FOR YOUR KITCHEN

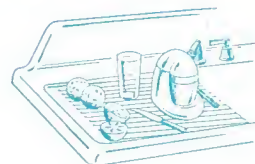

The main objective of good kitchen planning, that of providing a pleasant, attractive, and step-saving place in which to work, is realized in one that is equipped with a Kohler sink. In the extensive Kohler line you will find a sink to suit *your* needs, whether your kitchen be small, medium, or large.

The *acid-resisting enamel* of all Kohler sinks is impervious to the harmful action of juices and acids. This enamel is not a mere surface coating, but is acid-resisting clear through.

Lever-control sprayer for rinsing dishes and cleaning vegetables.

All Kohler sinks and laundry trays are made of non-flexing, rigid iron, to which is fused the *acid-resisting enamel* providing an easy-to-clean, lustrous surface. The Wilshire, illustrated above, is available in 60" and 72" lengths.

One-piece construction with a gleaming, acid-resisting enamel finish.

The Duostrainer makes the sink completely water-retaining by the mere lowering of the knob handle.

SINKS ON CABINETS

WILSHIRE

WILSHIRE. For the large kitchen. Has two 8" deep basins with Duostrainers, two drainboards, plus the full-length ledge with soap dish. Swing-spout mixing faucet, and lever-control sprayer. Sizes, 60x25" and 72x25". With cabinet, K-5505-A. Without cabinet, K-5500-A.

WELLWIN

WELLWIN. Right. Mounted on a double-door cabinet, the Wellwin has two 8" deep basins with Duostrainers—one for washing dishes, the other for rinsing. Ledge $3\frac{3}{8}$ " wide, swing-spout mixing faucet, and lever-control sprayer. Size, 42x25". With cabinet, K-5595-A. Without cabinet, K-5590-A.

CAMBERLEY

CAMBERLEY. For the average-size kitchen. Has ample storage space, two long drainboards, and a 20" basin, 8" deep equipped with Duostrainer. The $3\frac{3}{8}$ " wide ledge, with self-draining soap dish, extends clear across the back. Swing-spout mixing faucet and lever-control sprayer. Sizes, 54x22", 54x25", 60x25". With cabinet, K-5555-A. Without cabinet, K-5550-A.

CYMBRIA

CYMBRIA. For small kitchens. Has a 21" drainboard, 8" deep basin with Duostrainer, $3\frac{3}{8}$ " wide ledge, swing-spout mixing faucet, and sprayer. Sizes, 42x22" and 42x25". Sink at right with cabinet, K-5576-A; without cabinet, K-5570-A. Sink at left with cabinet, K-5575-A; without cabinet, K-5569-A.

DOUBLEDAY. Has two drainboards, 8" deep basin with Duostrainer, and $6\frac{1}{2}$ " high back to protect wall from splashing. Sizes, 54x22" and 60x22". Without cabinet, K-5700-A. With cabinet, K-5705-A.

DOUBLEDAY

HOLIDAY. Size, 42x20". Sink at right without cabinet, K-5720-A; with cabinet, K-5726-A. Sink at left without cabinet, K-5719-A; with cabinet, K-5725-A.

HOLIDAY

SINKS FOR BUILDING-IN

For installation in continuous counter tops, Kohler offers a range of styles and sizes to meet every requirement. All sinks are of enduring *acid-resisting enamel* on rigid cast iron.

Frames of polished aluminum, as shown above, assure a neat and waterproof installation. K-6699.

CLEARFIELD. With double compartment, double drainboard, providing plenty of work space. Basins are 8" deep and have Duostrainers. Ledge $3\frac{1}{8}$ " wide, swing-spout mixing faucet, and lever-control sprayer. Size, 60x21". K-5520-A.

DELAFIELD. A very popular built-in sink with two basins, 8" deep—one for washing dishes, the other for rinsing. Duostrainers, ledge $3\frac{1}{8}$ " wide, swing-spout mixing faucet, and lever-control sprayer. Sizes, 32x21" and 42x21". K-5610-A.

WINFIELD. For medium-size kitchens. Drainboards on both sides of 8" deep basin. Duostrainer, swing-spout mixing faucet, lever-control sprayer, and ledge $3\frac{1}{8}$ " wide. Size, 54x21". K-5560-A.

CHATFIELD. For smaller kitchens. Basin 20" long and 8" deep, drainboard $20\frac{3}{4}$ " long, and ledge $3\frac{1}{8}$ " wide. Size, 42x21". K-5580-A. With basin at left of drainboard, K-5579-A.

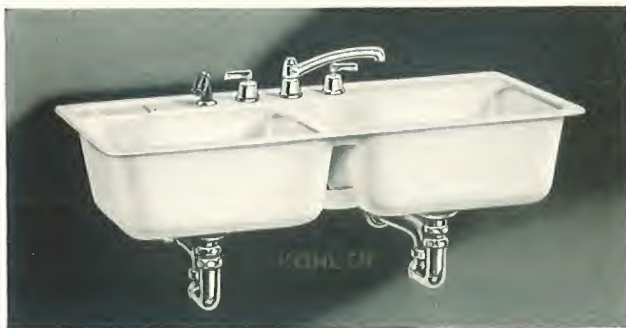

MAYFIELD. Preferred by many because of its modest price. Has 8" deep basin with Duostrainer, ledge $3\frac{1}{8}$ " wide, and a lever-control sprayer. Basin holds dish pan and rinsing basket. Sizes, 24x21" and 30x21". K-5620-A.

ADDISON. For the lower-cost home and cottage. Basin 6" deep with Duostrainer. Uses either counter top or wall type fitting. Sizes, 12x12", 24x16", 24x18", 24x20", 30x18", and 30x20". K-6550-A.

SEA CLIFF

TWIN FALLS

FOR THE APARTMENT KITCHENETTE . . . AND HOME LAUNDRY

SEA CLIFF. Furnished with enameled movable cover which fits either sink or tray compartment and slides easily without lifting. Has 8" deep basin and 13" deep laundry tray. Adjustable leg under laundry tray. Sizes, 36x25", 42x25", and 50x25". K-6609-A. With sink at right, K-6610-A.

ALLOWAY

ALLOWAY. With 8" deep basin and 13" deep laundry tray. Sink or tray can be installed at right or left as desired. For building into a counter top. Size, 42x20". K-6635-A. Available with Edgewater fitting, left inset, K-8605, or with Clearwater fitting, right inset, K-8655.

TWIN FALLS. Has 13" deep double-compartment laundry tray, continuous drain, strainers, and stoppers. Also 3½" wide ledge, swing-spout mixing faucet, and rigid, painted, angle-support. Can be installed away from wall. Size, 48x25". K-6751-A. With fitting in inset, K-6750-A.

FOR THE PROPER CARE OF YOUR PLUMBING FIXTURES AND FITTINGS,

USE KOHLER *Cleanser*

Prepared expressly for the effective cleansing of vitreous china and enameled plumbing fixtures, Kohler Cleanser is nevertheless equally efficient on chromium-plated fittings, pots and pans, tile, marble, and glass. Free of all harsh abrasives, it is harmless to the skin.

The attractive blue and white oblong can was designed to fit narrow sink and lavatory ledges. Purchased singly or in handy cartons containing 24 twelve-ounce cans, it is the sure safeguard for your plumbing fixtures.

KOHLER BOILERS

FOR HAND FIRING—STOKER AND OIL FIRING

A good heating system for the home is one which supplies adequate, silent, draftless, and economical heat. The core of such a system is a boiler.

Three popular boilers in the Kohler line are illustrated on this page. Two of these are primarily for burning coal, while the other is espe-

cially designed for oil burning. Each is available in a number of sizes.

Kohler boilers embody the best in cast iron boiler engineering, as described below. All are in bright, enameled-on-steel jackets. For more complete information, ask for catalog "Kohler Boilers."

Type "G"

Type "D"

Designed for somewhat larger heating installations, the Kohler "D" boiler combines modern efficiency with numerous economy features, and can easily be converted for use with a stoker, oil burner, or conversion gas burner. Large upper nipples promote rapid internal circulation between the sections; firebox with capacity to permit long firing periods; large direct and indirect heat-absorbing surfaces; efficient, heat-retaining insulation; heavy gauge steel jacket finished in baked-on enamel. Built-in water heater available.

While primarily designed for coal burning, the Kohler "G" boiler is readily convertible for use with an oil burner or conversion gas burner. Free circulation of water between the sections; large firebox; flues designed to give maximum effective heating surface with a minimum of horizontal areas to collect soot; efficient heat-retaining insulation; heavy gauge steel jackets finished in durable enamel. Openings for stoker firing. Built-in hot water heater available.

"22" OIL BOILER

All of the radiant heat of the flame is absorbed for use because the firebox is completely surrounded by water. There is no chance for heat to escape through the sides, base, or floor.

Here are other features which make the Kohler "22" the great and popular boiler it is:

- Multiple finned surfaces to secure maximum heating absorption.

- Large upper nipples to promote circulation of water.

- Large firebox with an abundance of heating surface directly exposed to burner flame.

- Built-in heater for year-round hot water.

- Aluminum foil insulation reflects 95% of radiant heat back into boiler.
